Allowable Subject Matter

1> Claims 1-4 are allowed.

2> The following is an examiner's statement of reasons for allowance: Per Examiner's suggestion, Applicant has submitted an amendment further defining the term "multiple types of medical device interface instruments" where the instruments "include the group consisting of: medical device programmers, medical device communication extenders, medical device system analyzers, and medical device monitors". The amendment overcomes the prior art, Faisandier, because Faisandier was directed merely towards a single instrument. The addition of the Markush group in "group consisting of" language further limiting the kinds of medical device interface instruments distinguishes over Faisandier and the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
